

CRITEO SPECIFIC TERMS OF SERVICE

Commerce Growth/ Criteo Go Service

These Criteo Specific Terms of Service are incorporated into the Agreement under which Criteo has agreed to provide Criteo Services to Partner. Specific terms described below will be applicable only to the Services selected by Partner.

Capitalized terms used but not defined in the Criteo Specific Terms of Service have the meaning given to them in the Criteo Umbrella Terms of Service.

1. Services Description

This Service can be utilized for media buying capabilities covering acquisition, (acquiring new customers) and/or retention (retaining existing customers), including advertising objectives. Marketing strategy and associated Criteo set-up can be implemented on a campaign, and if applicable, ad-set level.

Partner can independently switch between acquisition and retention campaigns during the execution of Criteo Services.

Service can be made available by Criteo to Partner on the following modes of delivery (which can be used independently or jointly):

Self-service: Partner can create, manage and end campaigns to fulfil its marketing needs directly in the Criteo Platform, with standard online support and educational content accessible within the Criteo Platform. Under limited circumstances, specific personal support may be provided by Criteo, at its sole discretion.

Managed service: Partner retains access to and control over their campaigns (including online material). Under this mode, Criteo may provide varying levels of specific personal support, at its sole discretion. For example, without limitation: account planning, campaign setup and management, creative services, technical or analytics services. Partner approval (in the form of written email) is required for authorization of new campaigns, budgets and budget modifications.

Criteo reserves the right to apply automation tools to simplify the types of campaigns and configuration(s), to maximize campaign performance.

2. Pricing and payment

Partner can manage its budget directly on the Criteo Platform.

Partner can select the type of results it aims to achieve, including but not limited to driving visits, conversions, revenue or video views.

Partner can select methods of controlling cost(s), through:

- 1) Budget, where a target result is maximized while aiming to spend the full budget.
- 2) Target, where results are optimized to target a specified KPI (e.g., target cost-per-order), or
- 3) Manual management of bids to balance costs and results.

Partner can manage budgets with controls to determine a maximum spend threshold, including how often budgets renew, and how budgets are paced over time.

Partner acknowledges that additional regulatory operating fees may be charged for Ads served in some specific jurisdictions, subject to prior written notification from Criteo.

3. Additional terms

3.1. Termination for convenience: Each Party may terminate the Agreement at any time, without penalties or indemnities, by registered letter or email with acknowledged receipt and with five (5) business days prior notice. The suspension or termination of a campaign can be done by the Partner itself via its access to the Criteo Platform or, if requested by the Partner, by the Criteo teams.

3.2. Ads display: Partner acknowledges and accepts that the Ads are displayed on the Criteo Network and that Criteo, or the relevant partner (as the case may be), has absolute discretion as to where and how often the Ads will be displayed and how priority is to be governed between different partners. In the event Partner notifies Criteo in writing that Ads are being displayed on media that do not comply with the supply partner guidelines, Criteo will promptly remove the Ads from such media.

3.3. As part of the Services, Partner further authorizes Criteo to deploy on Partner's Digital Properties certain programming code, HTML, SDK, files, or other mechanisms provided by third party vendors to enhance the Services ("**Third Party Services**"). Partner may, at any time, opt-out of one or more Third Party Service(s) by notifying Criteo. Such Third-Party Services include:

- ID5 Technology Limited ("**ID5**"): the "**ID5 Tag**" enables ID5 to write, read, access, associate, and/or create unique identifiers that may be associated with an end user or visitor. These identifiers provide expanded user identification abilities Partner acknowledges and agrees that the deployment of the ID5 Tag shall be subject to the ID5 ID Agreement available <https://id5.io/legal/agreements/id5idagreement> and Partner agrees to comply with the terms of the ID5 ID Agreement accordingly. Partner further acknowledges and agrees that notwithstanding anything in this Agreement to the contrary, ID5 shall be a third-party beneficiary of this clause and shall be entitled to enforce it directly against Partner. The rights of the Parties to agree any variation, waiver or settlement under the Agreement which relates specifically to this clause shall be subject to ID5's prior written consent.
